Questions to help me Customize your Wedding Video to your Specifications

Please answer the following questions. If you don't understand or need some guidance, please call me and I will be happy to go over it with you. It is EXTEMELY important that you do this so I can produce your video exactly to our desires. It is very important to me to capture the spirit of not only your Wedding Day, but who you are as a couple. And remember, this is not only your Wedding Day, but also a Family Reunion, so it is equally important to capture the essence of who your Family is and how they helped mold you into what you are today. I want your Wedding production to be something you are very proud to show your friends and family. I want it to be cherished as a family heirloom that will be passed from generation to generation. I want nothing less than for people to see it and say it is the best they have ever seen! I am very happy you entrusted me with such an important task!
